About Me

Hi, I'm Yu, an UX designer. My major is Information Art & design. I study interaction design for 5 years. And I have been working in this area for 5 years. I design website & Mobile app, and some product. I'm interested in Tangible User Interface. I have good logical thinking and communication skills. I'm willing to take responsibility and I'm good in teamwork. I believe a good design should be natural, simple, friendly, and emotional. Design is not only a job but a lifestyle, that is always try to make our life better.

Working Experience

- 2014-Present  **IBM Design Studio - Senior UX designer**
Shanghai & Beijing
- I Leverage IBM Design Thinking, collaborate with PM, sales and Devs, prioritize needs, drive user stories, figure out the real needs behind consumers' requests, design the wireframe and UI. I also do the prototype to get feedback, work with development team to ensure quality of the product, iterate continuously to deliver delightful user experience.
- 1 yr 2 mos **IBM Verse mail / Mail Onboarding Manager**
Verse is business email service that offers social analytics from the cloud to mobile devices or desktops. I design the cognitive mail that helps users to prioritize daily work. And I am responsible for Mail Onboarding Manager platform design.
- 1 yr 3 mos **IBM Connections Docs - Cloud collaborative document editing**
Docs is a socially enabled productivity tool that enables teams to work collaboratively on word processing, spread sheet and presentation files. I have designed main features for all three editors.
- 1 mos **IBM Machine Learning for Z/OS**
This solution helps organizations ingest and transform data to create, deploy and manage models. I designed the website for the system.
- 3 mos **IBM Mobile First Platform**
This service provides a complete environment to develop apps designed specifically for mobile users. I design the UX for push system.
- Jul.-Oct.14 **IBM Design Camper - Austin, Texas Area**
Austin, USA
In IBM Austin Design Studio, I learned and practiced IBM Design Thinking, involved in different phases of project as researcher, UX and UI designer, lived with different designers from different IBM studios all around the world.
- 2010-2012  **NOKIA Research Center - Design Intern**
Beijing
I do the Interaction designer for two years in NRC. Learned how to do a real product for real users with different teams. Launch my first mobile application in app market.

Education

- 2011-2014  **Tsinghua University, Academy of Art & Design**
Interaction design | Master Degree
- Jul.-Sep.12  **University of Washington,**
Attend the World Lab Summer Institute project for two month. Collaborating with UW Electrical Engineering students
- 2007-2011  **Tsinghua University, Academy of Art & Design**
