Hi, I'm Yu, a 25 years old Chinese interaction designer. My major is Information Art & design. I study interaction design for 5 years.

I do web & Mobile application design, Service design, user experience design and some product design. I'm interested in the Tangible User Interface. I believe that a good design should be natural, simple, friendly, and emotional. Design makes our life better.

I have good logical thinking and analytical skills. Willing to take responsibility. Good for teamwork and interpersonal communication. I'm ready to work for you!
